299 – Hand crafted furniture from Rajasthan. These ranges have high perceived value are heavy, solid & have a rustic charm that is hard to replicate with (100%) machine made furniture. Unlike some items on the market (which have plywood drawer bottoms and backs) these are made from solid Shesham & Acacia wood. All items are hand polished & will mark if wet/hot mugs/plates are put directly on the surface. The plus side is that it is easy to re polish.

362 - Important. Special care is needed in transporting unpacking & placing these items on the floor. There is more chance of damage during unpacking than during transport. If put down at the wrong angle or heavy items are placed on them the glass may crack. It is important to use the clear plastic washer on the outside of drawers when fitting handles.If handles/knobs are overtightened the glass will crack. Each box has instructions, Any returns must be returned in original packaging.

371 – Important. Special care is needed in transporting unpacking & placing these items on the floor. There is more chance of damage during unpacking than during transport. If put down at the wrong angle or heavy items are placed on them the glass may crack. It is important to use the clear plastic washer on the outside of drawers when fitting handles. If handles/knobs are overtightened the glass will crack. Each box has instructions, Any returns must be returned in original packaging.
